**Biggest Aviation Meet The South Has Ever Seen**

The Nashville Aero Club is preparing to give, at the State Fair grounds on April 27, 28 and 29, an aviation meet that will surpass all previous demonstrations of aeronautics ever made in the South. Marvelous strides have been made in the art of aviation and many feats will be successfully accomplished that a few months back would not have been attempted.

The meet will bring to Nashville a number of the world's most famous aviators, among them Glenn H. Curtis, the recognized king of aviation, both in aviation and practical operation. With him will be J. A. D. McCurdy, Lincoln Beachey, J. D. Ward and others.

The several aviators will compete with one another both in speed contests and altitude contests and it is certain that, in the latter, the machines will ascend more than a mile, maybe two miles, above the heads of the spectators, as the aviators will attempt to break the altitude record, which is over two miles.

In order to demonstrate the rapidity at which the planes are moving, automobiles will race with them.
